T 10/1, 1.527-152.0, 2023-05-25

Higher capacity

- The machine is equipped with a fleece filter bag. This absorbs significantly more dust than conventional paper filter bags.

With and without filter bag

- The large, round permanent main filter is made from washable nylon, making it extremely sturdy and tight enough to enable vacuuming without a filter bag for a certain period.

On-board accessory storage

- The accessory storage is integrated in the large bumper.
